Next Meeting: February 20, 2018

West Whiteland Township Bicycle and Pedestrian Plan

DRAFT Outline

Table of Contents

Executive Summary

This section of the plan will briefly summarize why the plan is being created and how it relates to adopted Township planning documents. It will also describe how the plan is organized and highlight the sections of the plan itself.

Plan Introduction & Context

This chapter will describe the purpose of the Plan and present the overall goal and objectives of the Plan and its importance to bicycle and pedestrian circulation in the Township. It will also briefly describe the Township and the need for such a plan. Benefits of bicycle and pedestrians accessibility and the need for amenities to support such accessibility, and how the same amenities can assist in transforming a community will also be discussed. Lastly, documents (both local and regional) will be showcased as part of this section.

Existing Conditions

This chapter will be formatted and focus on following items:

- Demographics/Data
- Township Points of Interest
- Existing Accessibility (Sidewalk/Trail Inventories)
- Existing Gaps

Maps, tables, renderings and photos will be included as part of this chapter.

SWOT Analysis

This chapter will focus on identified issues involving bicycle/pedestrian mobility within the Township and include details on the assets and constraints associated with key priority projects listed in the plan. Planning Commission members input and public survey results will also be a part of this chapter and serve as the public participation portion of the Plan.

Goals and Priority Projects

This Chapter will include the goals and objectives of the plan and the various bike/ped. circulation issues within the Township:

- Safety
- Access for all users
- Regional connections
- Walkability within Exton Crossroads (closing the gaps and defining loops)
- Planning policies and programs
- Promotion of walking and biking

It will also showcase priority projects within the Township in detail with content, tables, maps, renderings and photos.

Implementation Plan

This chapter will describe how the proposed projects highlighted within the plan will be implemented and list levels of priority, responsible parties and cost estimates in an implementation table. A listing of potential funding opportunities will also be within this chapter.

Appendix

The appendix will have additional demographic information not showcased in the plan but referenced. Public survey results will also be included in this section.
